

IMP management

Cilostazol:

- Cilostazol tablets should be taken 30 minutes before breakfast and the evening meal.
- Taking cilostazol with a meal can affect how the medicine is absorbed into the body and may increase the risk of side effects.

Isosorbide mononitrate:

- Headaches - hydration; paracetamol; avoid alcohol
- Dizziness:
 - Stop what you are doing and sit or lie down until you feel better
 - Get up slowly from a sitting or lying position
- Nausea - take ISMN with or after meals
